I've enjoyed this quite a lot. Even though it sends me into spiraling hate of my life and all the enemies in the game are rage inducing to no end. Personally I'm not a perfect fit for rage game, but DARTHY really pulled me in and continued to encourage me to keep going. Man it messes with you so much by leading you in so many wrong directions. Just need to keep going. keep playing. keep dying.. Darthy is Addicting! Evil! Awesome! Totally recommend, this game is amazing! Gameplay video below! <https://www.youtube.com/watch?v=qvqSaqRzLfU>. My summary in 4 sentences: DARTHY is a cute platformer with some shooting. Pretty basic mechanics, there is some rocket riding at one point and that's cool. The story is kinda subtle, not very much. Overall an average platformer I personally enjoyed.. Pretty cool game, A Solid 10/10 Hope your son gets well,. This game is difficult and sometimes feels near impossible! I love all the time I've played with it but the rage of the spinning fireball things has overcome me too much! this game is definitely made with love and I believe it deserves more attention than it's actually
